

Hartland Animal Hospital

- More than 10 million pets get lost each year; without ID, 90% won't return home.
- One third of all pets, including "indoor-only" cats and dogs, will become lost during their lifetime.
- Unfortunately, getting lost is the number 1 cause of pet death.
- A microchip can ensure a pet's protection and safety if ever lost and then found.
- Microchipping is as quick and painless as when we administer your pet its regular vaccinations.
- HomeAgain® membership offers valuable benefits such as:
 - Lost Pet Recovery Services
 - 24/7 access to ASPCA poison control (\$60 value per call)
 - Medical Insurance for Lost Pets* (Up to \$3,000 coverage for injuries your dog or cat suffers while lost, less a \$50 deductible)
- At Hartland Animal Hospital, we strongly believe in microchipping as a Standard of Care for all our feline and canine patients.
- For just **\$50.00**, we can microchip your pet today during your regular visit and enroll it in the HomeAgain Pet Recovery Service.
- This special price includes the microchip, the injection and the first year service with HomeAgain.

We recommend this life saving procedure and service for all our cat and dog patients especially if one or all of the following apply to your household:

- I occasionally travel with my pet
- I have young children
- I live in area where wildlife is present
- I have more than one pet
- I have lost a pet in the past

The Staff at Hartland Animal Hospital

- Yes. Please protect my pet today with a microchip and first year enrollment in HomeAgain for **\$50.00**.
- My pet is already microchipped but not enrolled. I would like to enroll my pet in HomeAgain today.
- I don't know if my pet is microchipped. Please scan my pet and discuss the benefits of enrollment in HomeAgain.
- No. I understand that a microchip can help protect my pet, but I do not wish to microchip my pet today.
